

The fontawesome5 package^{*}

Font Awesome[†](The font)
Marcel Krüger[‡](The L^AT_EX package)

January 15, 2020

This package provides L^AT_EX support for the Font Awesome 5 icons.
To use Font Awesome 5 icons in your document, include the package with

```
\usepackage{fontawesome5}
```

Alternatively you can add the `fixed` option to get fixed-width icons:

```
\usepackage[fixed]{fontawesome5}
```

For every icon a macro is provided: Just use the official icon names converted to CamelCase with the prefix `\fa`. For example to use the `hand-point-up` icon, use `\faHandPointUp`. For icons ending with `-alt`, append a `*` instead. An optional argument can be added to select the style (`solid` or `regular`). The default style is `solid`, it can be changed with `\faStyle{...}`

Every icon can also be accessed using the official icon name. To do this, you can use `\faIcon{the-icon-name}` or `\faIcon[style]{the-icon-name}`.

A list of all included icons with their respective commands can be found at the end of this document.

Example

```
...
\usepackage{fontawesome5}
...
\begin{document}
...
A simple icon: \faHandPointUp\\
Multiple versions of the file icon:
\faFile~
```

^{*}This document corresponds to fontawesome5 version 5.12.0, dated 2020/01/15

[†]More information at <https://fontawesome.com>

[‡]E-Mail: tex@2krueger.de

```

\faFile*~
\faFile[regular]~
\faFile*[regular].\\
Alternative syntax:
\faIcon{file}~
\faIcon*{file}~
\faIcon[regular]{file}~
\faIcon*[regular]{file}.
...
\end{document}

```

A simple icon: 🖨

Multiple versions of the file icon: 📄 📄 📄 📄.

Alternative syntax: 📄 📄 📄 📄.

Font Awesome Pro

Font Awesome 5 is available in a Free and a Pro version. This package uses the free version by default. If you own a Pro license and have the Font Awesome 5 Pro desktop fonts installed in your system font path, you can use Pro instead. For this, load the package with the `[pro]` option:

```
\usepackage[pro]{fontawesome5}
```

Now additional icons, the `duotone` and the `light` style can be used. Pro is only supported with X_YL^AT_EX and Lua^AT_EX.

Updates

This package corresponds to Font Awesome 5.12.0. In case there is a newer version available on the Font Awesome homepage, check for updates on <https://ctan.org/pkg/fontawesome5>. Should there be no corresponding update on CTAN, you can write a mail to tex@2krueger.de. If you use X_YL^AT_EX or Lua^AT_EX, you can also directly download the new Desktop Fonts from <https://fontawesome.com> into your T_EX tree.

If you save them with the filenames

```
FontAwesome5Brands-Regular-400.otf
```

```
FontAwesome5Free-Regular-400.otf
```

```
FontAwesome5Free-Solid-900.otf
```

the package will start using the new version right away.

Bugs

For bug reports and feature requests, write to tex@2krueger.de.

Full icon list for FontAwesome 5 Free

All icons marked with TM are brand icons.

All brand icons are trademarks of their respective owners. The use of these trademarks does not indicate endorsement of the trademark holder by Font Awesome, nor vice versa. *Please do not use brand logos for any purpose except to represent the company, product, or service to which they refer.*
